

FUTURE OF NUCLEAR ENERGY

Just the facts

Carbon-free nuclear power is an important part of the world's clean energy future, and Idaho National Laboratory is at the center of advanced nuclear research.

Come learn about the projects INL is working on, how we work with industry and communities, and what nuclear can do besides make electricity.

Bring your smartphone to participate in interactive polling about topics of interest. Attendees also can submit questions beforehand to nuclearquestions@inl.gov.

Community Discussions

Join us for a discussion about the future of nuclear energy featuring experts from Idaho National Laboratory

**Thursday,
October 27**

6:30 p.m.

Virtual discussion
