

UNLOCK YOUR FUTURE IN **BIOENERGY**

with the INL Bioenergy Scholars Program!

READY TO APPLY?

- Complete your own project with support from INL facilities and mentors.
- Secure your funding through a specific program or project funding opportunity. Please note that individual program or project funding is required, as funding is not provided through INL.
- Email Miranda.Kuns@inl.gov to explore our capabilities, discover existing INL projects, connect with potential mentors and submit your application.
- We offer rolling enrollment, so seize this chance to shape your future in bioenergy today!

The INL Bioenergy Scholars Program

-  The Idaho National Laboratory (INL) is your gateway to academic and professional growth in the field of bioenergy. Designed for undergraduates, predoctoral and postdoctoral researchers, and faculty members, our program seamlessly integrates academic research with INL's world-renowned bioenergy expertise.

Why Apply?

- Use our cutting-edge laboratories and advanced technologies to elevate your research.
- Our mentors will guide you through your research journey, offering insights and support that will enhance your skills and expand your professional network.
- Our program offers research pathways that allow you to contribute to the field, with opportunities to publish your findings and make a real-world impact.
